

capricorn 01
Zagato

THE ART OF LIGHTWEIGHT.

BEYOND PERFORMANCE .

When I think about true performance, I don't begin with numbers or specifications — I begin with conviction. At capricorn GROUP, everything we create is driven by a deep belief: that excellence is never accidental. It is born from passion, shaped by precision, and realized through the courage to go beyond what others consider possible.

For me, this journey has never been just about building components, but about contributing to something greater — redefining what performance truly means. But true excellence is also about belonging.

Belonging to a mindset that refuses compromise. To a circle of individuals who share a passion for the extraordinary. The capricorn 01 Zagato reflects this philosophy. Not just a machine, but a statement of intent — and an invitation to become part of a rare and uncompromising world.

Yours sincerely,

A simple, elegant handwritten signature in black ink, consisting of a vertical line and a horizontal line that curves slightly to the right.

CAPRICORN GROUP – ENGINEERING SINCE 1933.

Since 1933, the capricorn GROUP has evolved into a strong network of specialized engineering and manufacturing locations across Europe. With its core footprint in Germany, capricorn combines deep technical expertise with a clear focus on precision, performance, and innovation. Complementing this foundation, additional sites in Italy, the UK, and France bring further specialized capabilities — from advanced materials to high-performance applications in motorsport, aerospace, and automotive engineering. Each location contributes its unique strengths, creating a powerful ecosystem of knowledge and technology. For more than 90 years, capricorn has stood for engineering excellence — where heritage meets cutting-edge development across Europe for high-end products around the world.

OUR CAR MANUFACTURING HEAVEN AT THE GREEN HELL.

Located at the legendary Nürburgring since 2005, our state-of-the-art composite facility is home to around 200 highly skilled experts crafting premium lightweight components. Across more than 6,000 m² of cutting-edge production space, we serve some of the world's most prestigious automotive brands — including Audi, Bugatti, and Porsche. With the upcoming completion of our third building in 2026, our footprint will grow to over 18,000 m² — marking the next milestone in our journey of innovation and excellence.

THE HIGH-END BOUTIQUE MANUFACTURER.

capricorn is not a promise of the future — it is the result of decades of proven performance. Rooted in motorsport and built on real manufacturing expertise, we create high-end vehicles in our own advanced facilities, using state-of-the-art technology. This is not a concept. It is craftsmanship in motion.

WHERE RACING DRIVES INNOVATION.

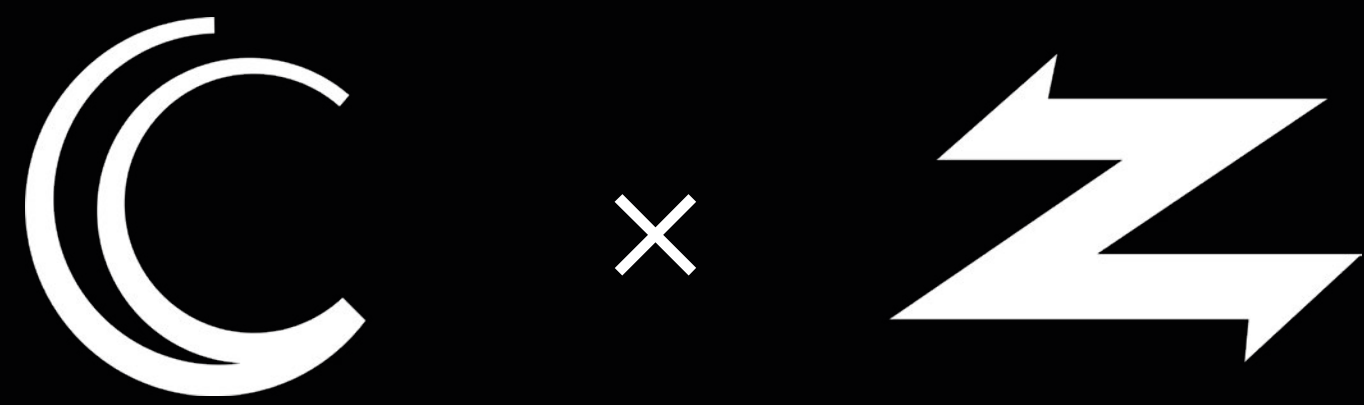

capricorn has shaped the unseen — precision components, carbon systems, and engineering solutions that power the most successful machines in motorsport. From Formula 1 to Le Mans, the company has been a trusted partner to teams who demand total performance and total reliability. In capricorn's world, engineering is not a function. It is a craft — honed, tested, refined. Theirs is the art of making speed possible through lightweight.

THE PERFECT MARRIAGE.

ANDREA ZAGATO

Zagato was founded in 1919 by Ugo Zagato in Milan, drawing directly from his experience in the aeronautical industry. He applied aircraft construction techniques to automobiles, focusing on lightweight materials and aerodynamic efficiency. Early collaborations with Alfa Romeo defined the brand's identity, shaping a legacy of performance-oriented design. Zagato's signature style emphasized minimalism and functionality, a reflection of its roots in aviation engineering.

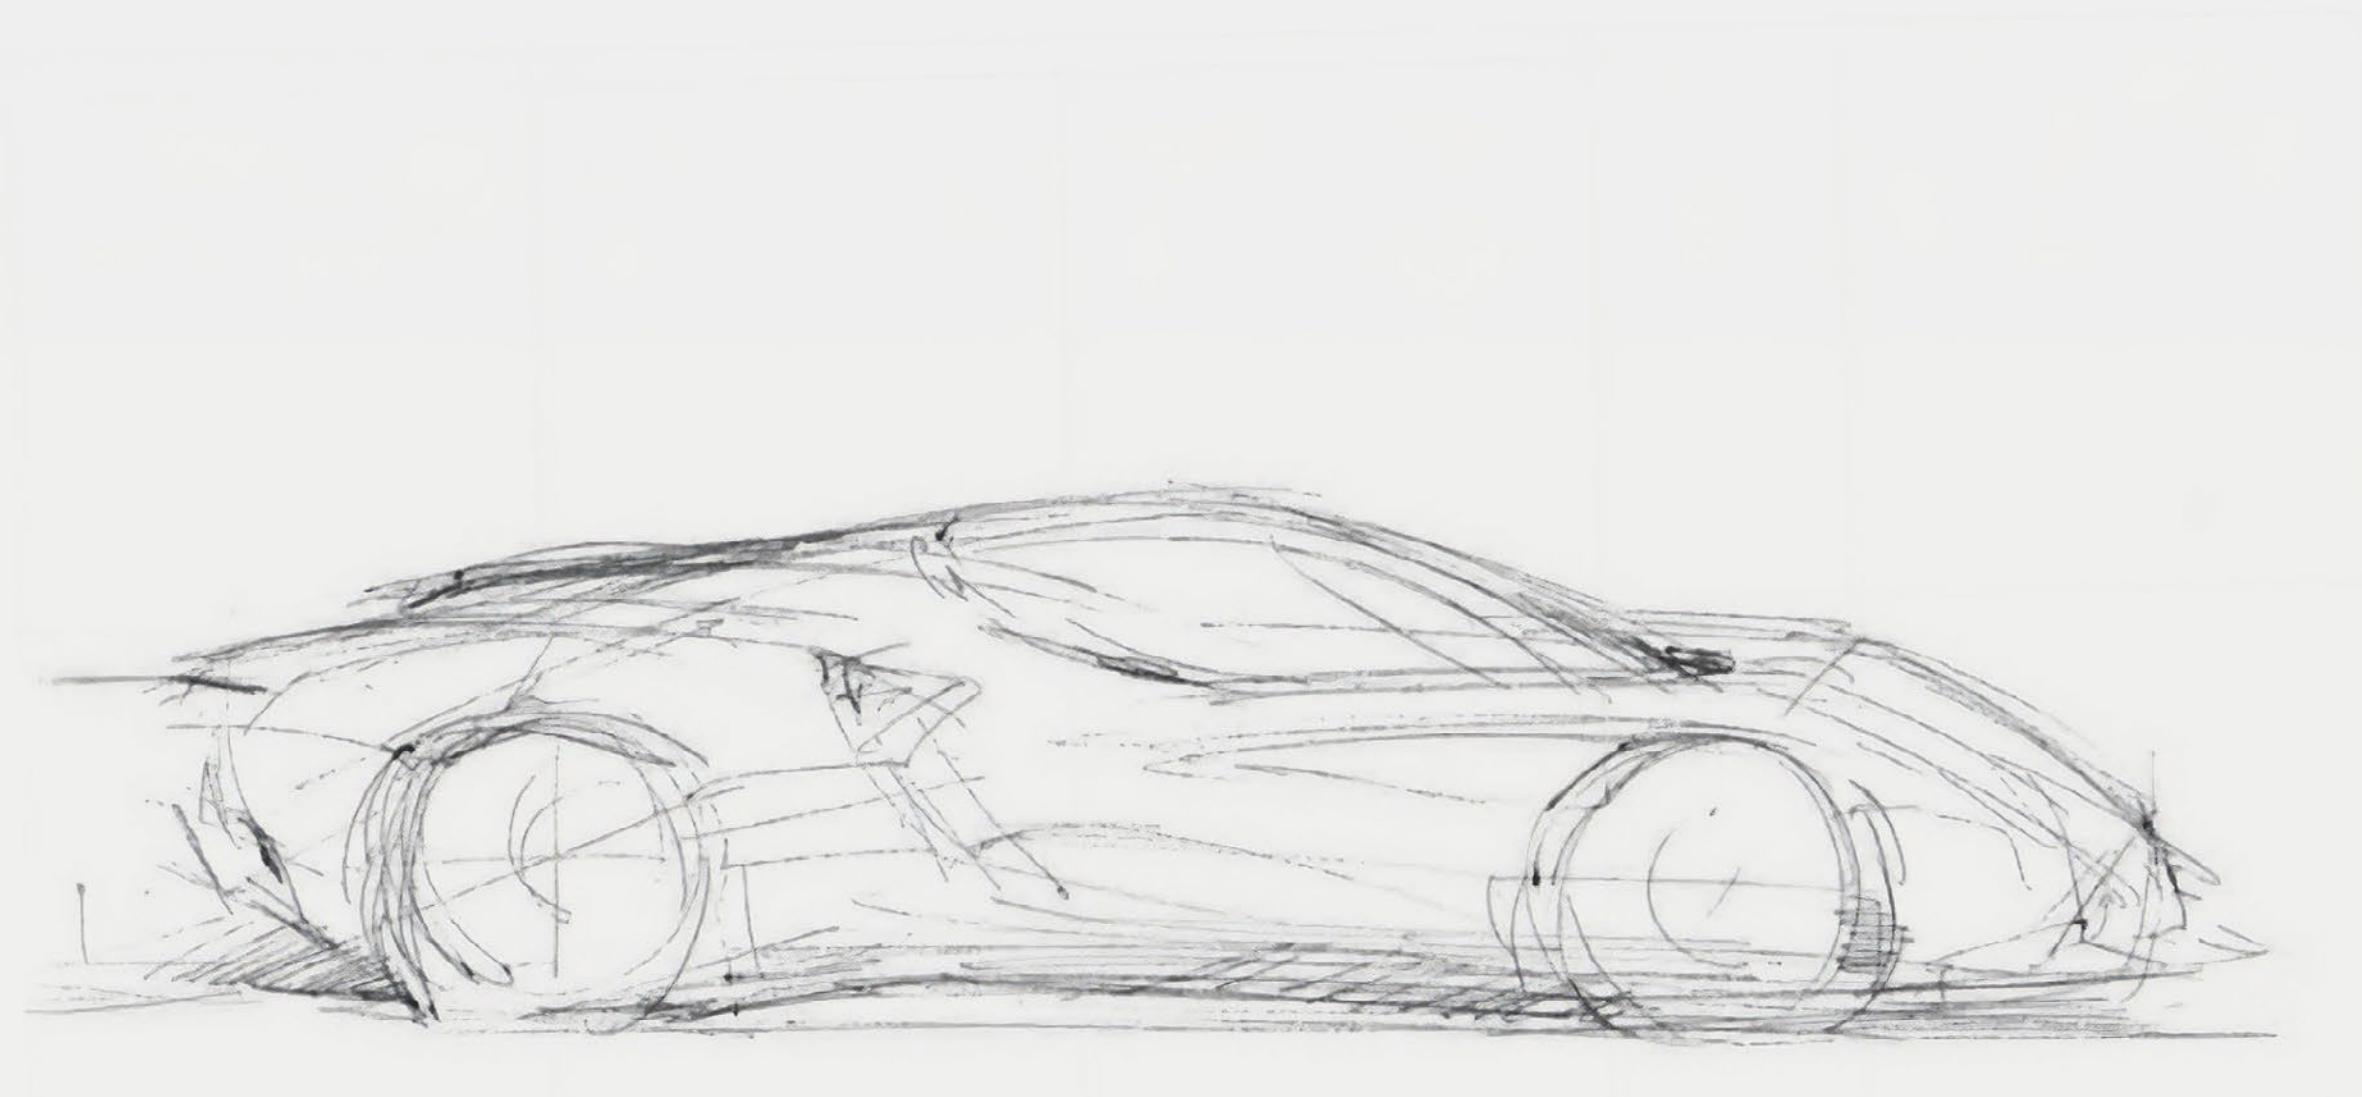

Andrea Zagato, the CEO of the Italian coachbuilder that takes his surname. Founded by his grandfather, Zagato would go on to design very limited special editions of some of the most acclaimed cars from almost every major manufacturer, from Bugatti, BMW, and Porsche to Ferrari, Aston Martin, Alfa Romeo, and Lamborghini to just name a few.

ICONIC DESIGN .

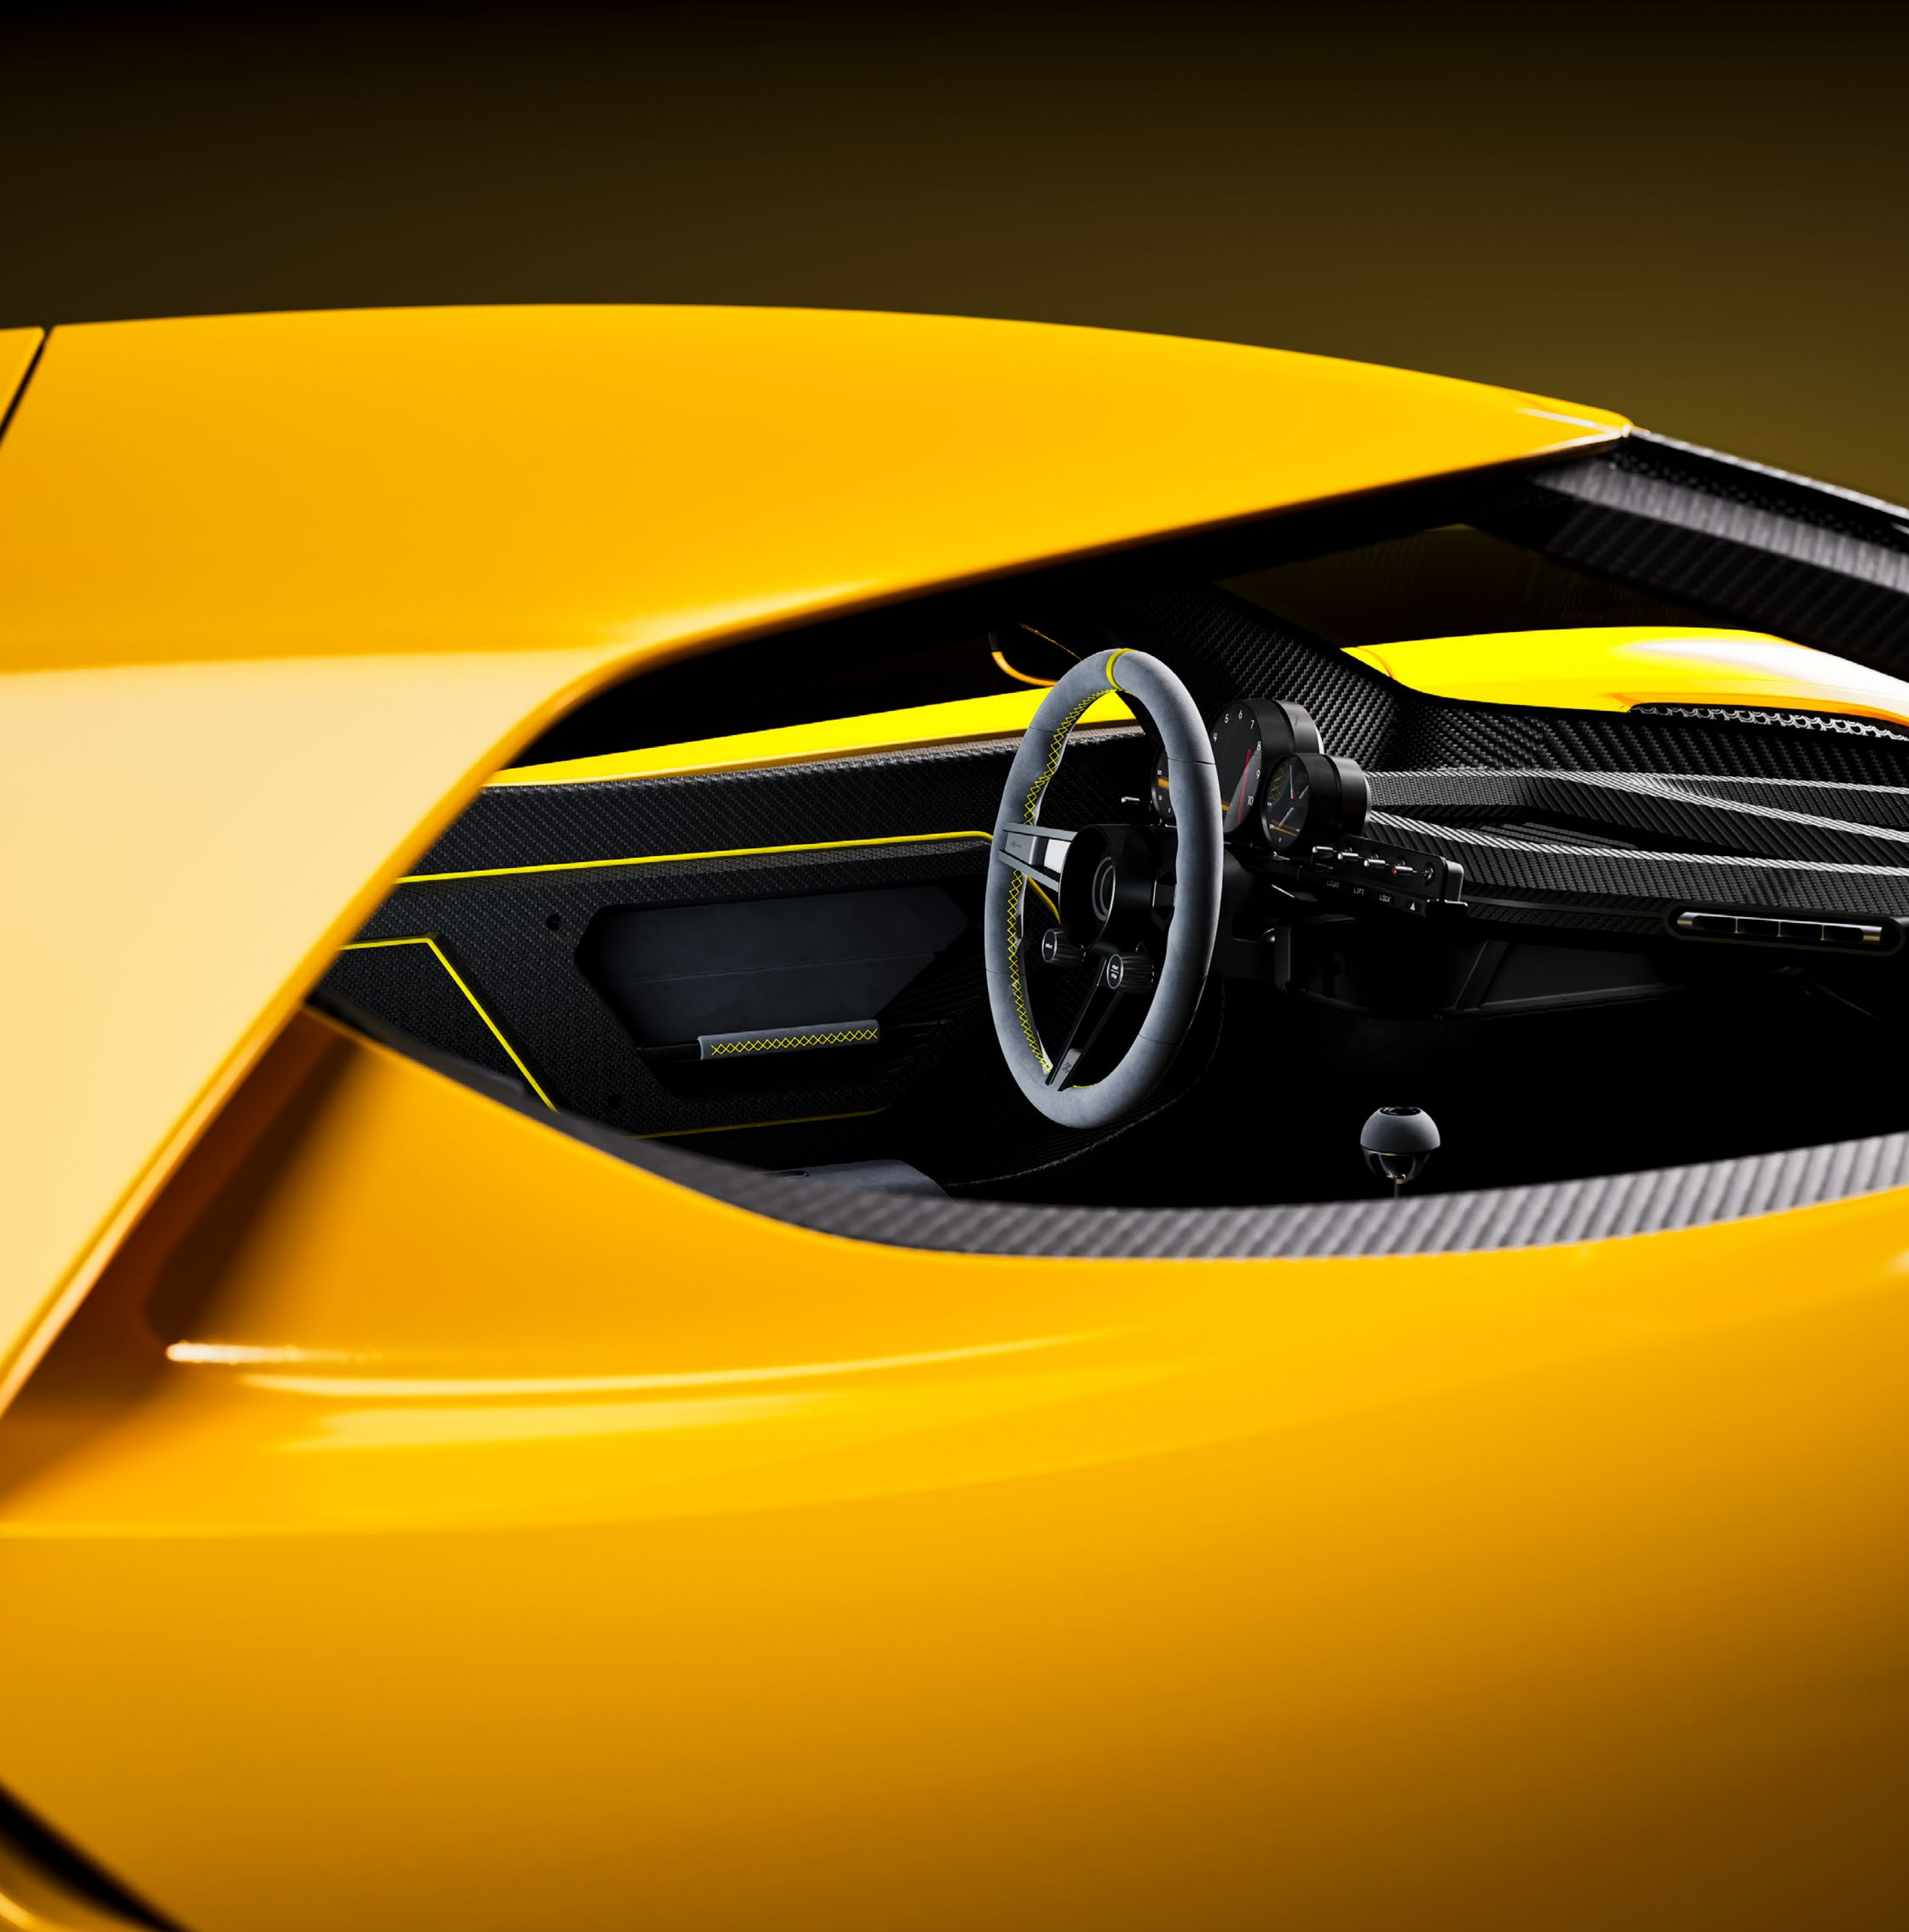

NORI HARADA

The Chief Designer at Zagato, brings a unique fusion of Japanese precision and Italian flair to the iconic design house. Educated in the U.S. and Italy, Harada joined Zagato in the late 1990s and has since shaped some of the brand's most striking and aerodynamic forms. His visionary approach continues to define the elegance and purity of Zagato's design language across exclusive collaborations with the world's most prestigious carmakers.

*“THE BEST CARS ALREADY HAVE BEEN BUILT
- WITH ONE EXCEPTION.”*

The capricorn 01 Zagato is the first hypercar developed entirely by capricorn in collaboration with the legendary Italian coachbuilder Zagato. Combining a lightweight LMP1-grade monocoque, motorsport-derived performance and a sculptural carbon-fiber body.

It is a manifesto for precision, speed, and design purity.

19

TRUE COLLECTIBLE

Limited to 19 units worldwide, a hypercar destined for the most discerning collectors.

>900 HP

ENGAGING

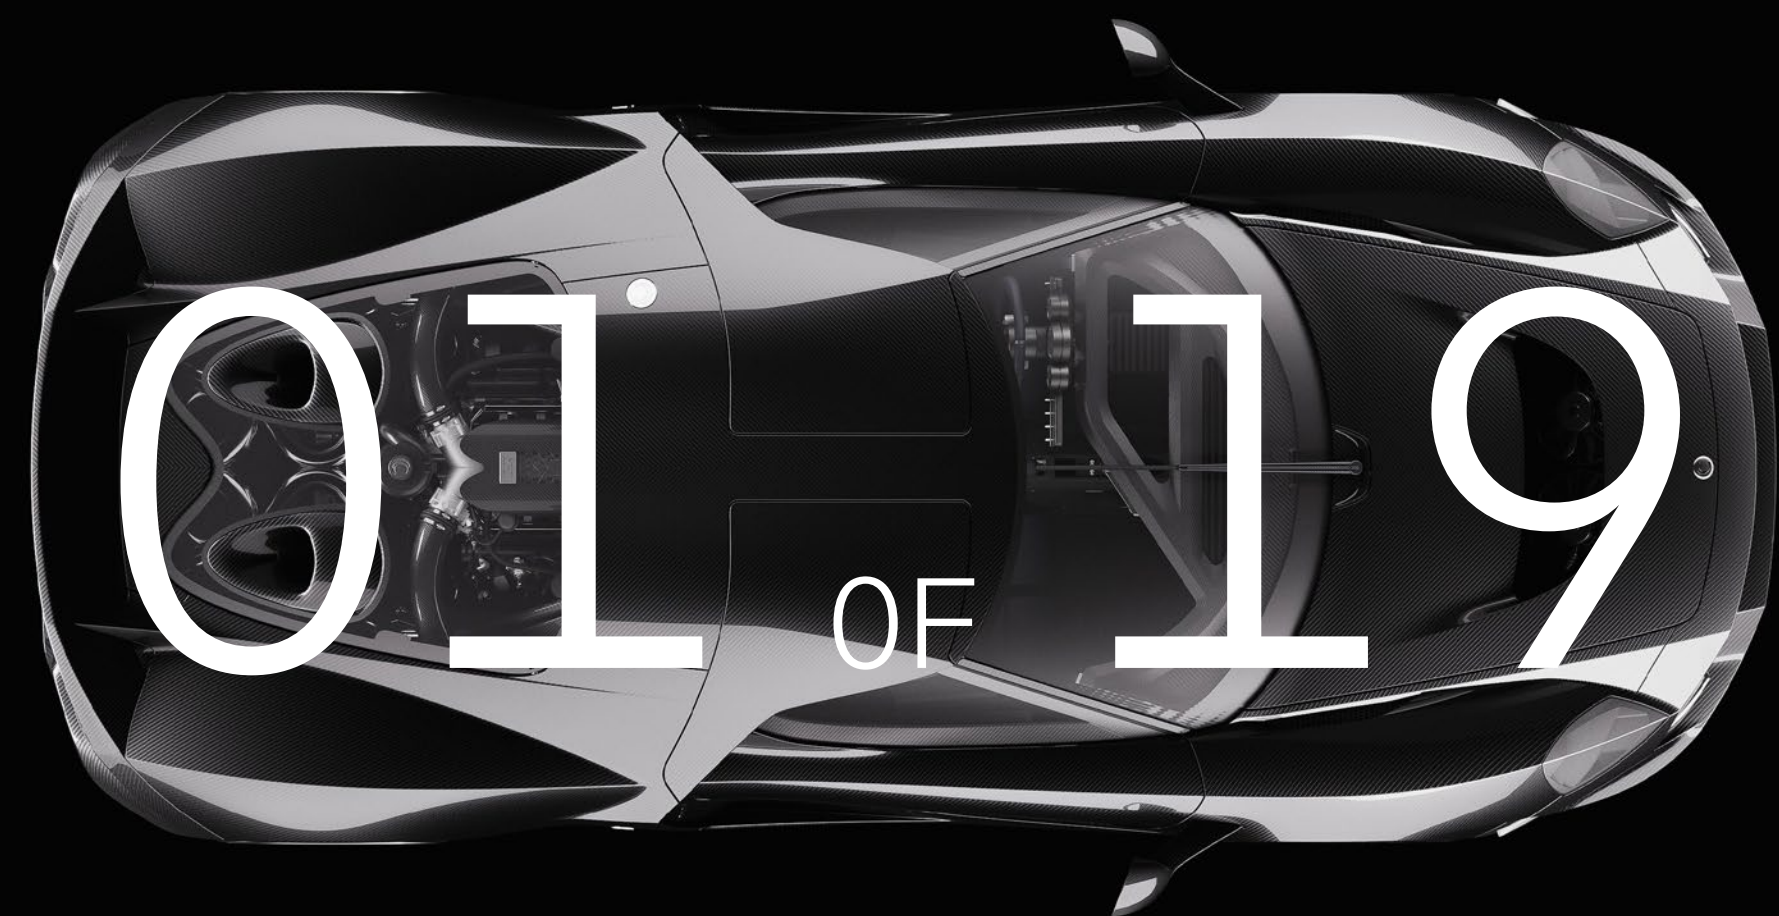

The 5.2 supercharged V8 engine with capricorn internals puts out over 900 hp to the rear wheels through a dogleg 5-speed manual. Analog perfection.

<1200 KG

LIGHTWEIGHT DNA

Weighing under 1200 kg (dry weight), the capricorn 01 Zagato distills capricorn's race-proven carbon technology with Zagato's coachbuilding finesse.

SHAPED BY INTENTION.

WE CREATE MEANING THROUGH SUBSTANCE.

For decades, our work has taken shape where performance is proven — in motorsport, in engineering, and in the precision of real manufacturing. Not as a vision, but as reality. This same philosophy defines our first own hypercar. Not conceived as a product for many, but as a project reserved for a deliberately small group of individuals. A circle shaped by intention. By shared standards. By a deep understanding of what true engineering represents. But beyond this, it is something more personal. Those who become part of this project do not simply acquire a car — they become part of a family. A group defined not only by ownership, but by closeness, by direct access, and by a shared journey. A relationship that extends beyond the vehicle itself. Within this circle, ownership takes on a different meaning. And while this circle was always meant to remain small, it is already beginning to close.

What remains is not availability in the conventional sense — but a final opportunity to belong.

EXTERIOR.

STUNNING BEAUTY DESIGNED TO STAND THE TEST OF TIME.

“While it looks like nothing else on the road today, the capricorn 01 Zagato is not a car from a sci-fi movie or a game; it is a car that can take its place in the history of the automobile with confidence. Naturally, it reflects capricorn’s lightweight engineering values and Zagato’s proud design heritage. Still, more than that, it reflects the vision and the personalities of the two men who created it, Robertino Wild and Andrea Zagato,” reveals Norihiko Harada, Chief Designer, Zagato.

capricorn 01
Zagato

MORE THAN A CENTURY OF CREATING EXCEPTIONAL EMOTIONAL ITALIAN DESIGN.

Until now, capricorn may be a name that many automotive enthusiasts may have heard of, though they will certainly be very familiar with the company's work, Zagato, however, is a name that speaks for itself. The company's president, Andrea Zagato, is the grandson of the visionary designer, Ugo Zagato, who founded the company in 1919.

“Until now, though, Zagato has never designed a hypercar. I am delighted that the first hypercar ever to feature a Zagato-designed body has been created in partnership with my close friend Robertino Wild, and his highly experienced technical team at capricorn. And I am also proud that by combining Italian design flair with German engineering discipline and holding steadfast to the vision that Robertino and I share on what a true driver's car should be – we have brought a unique and highly collectible proposition to the market.”

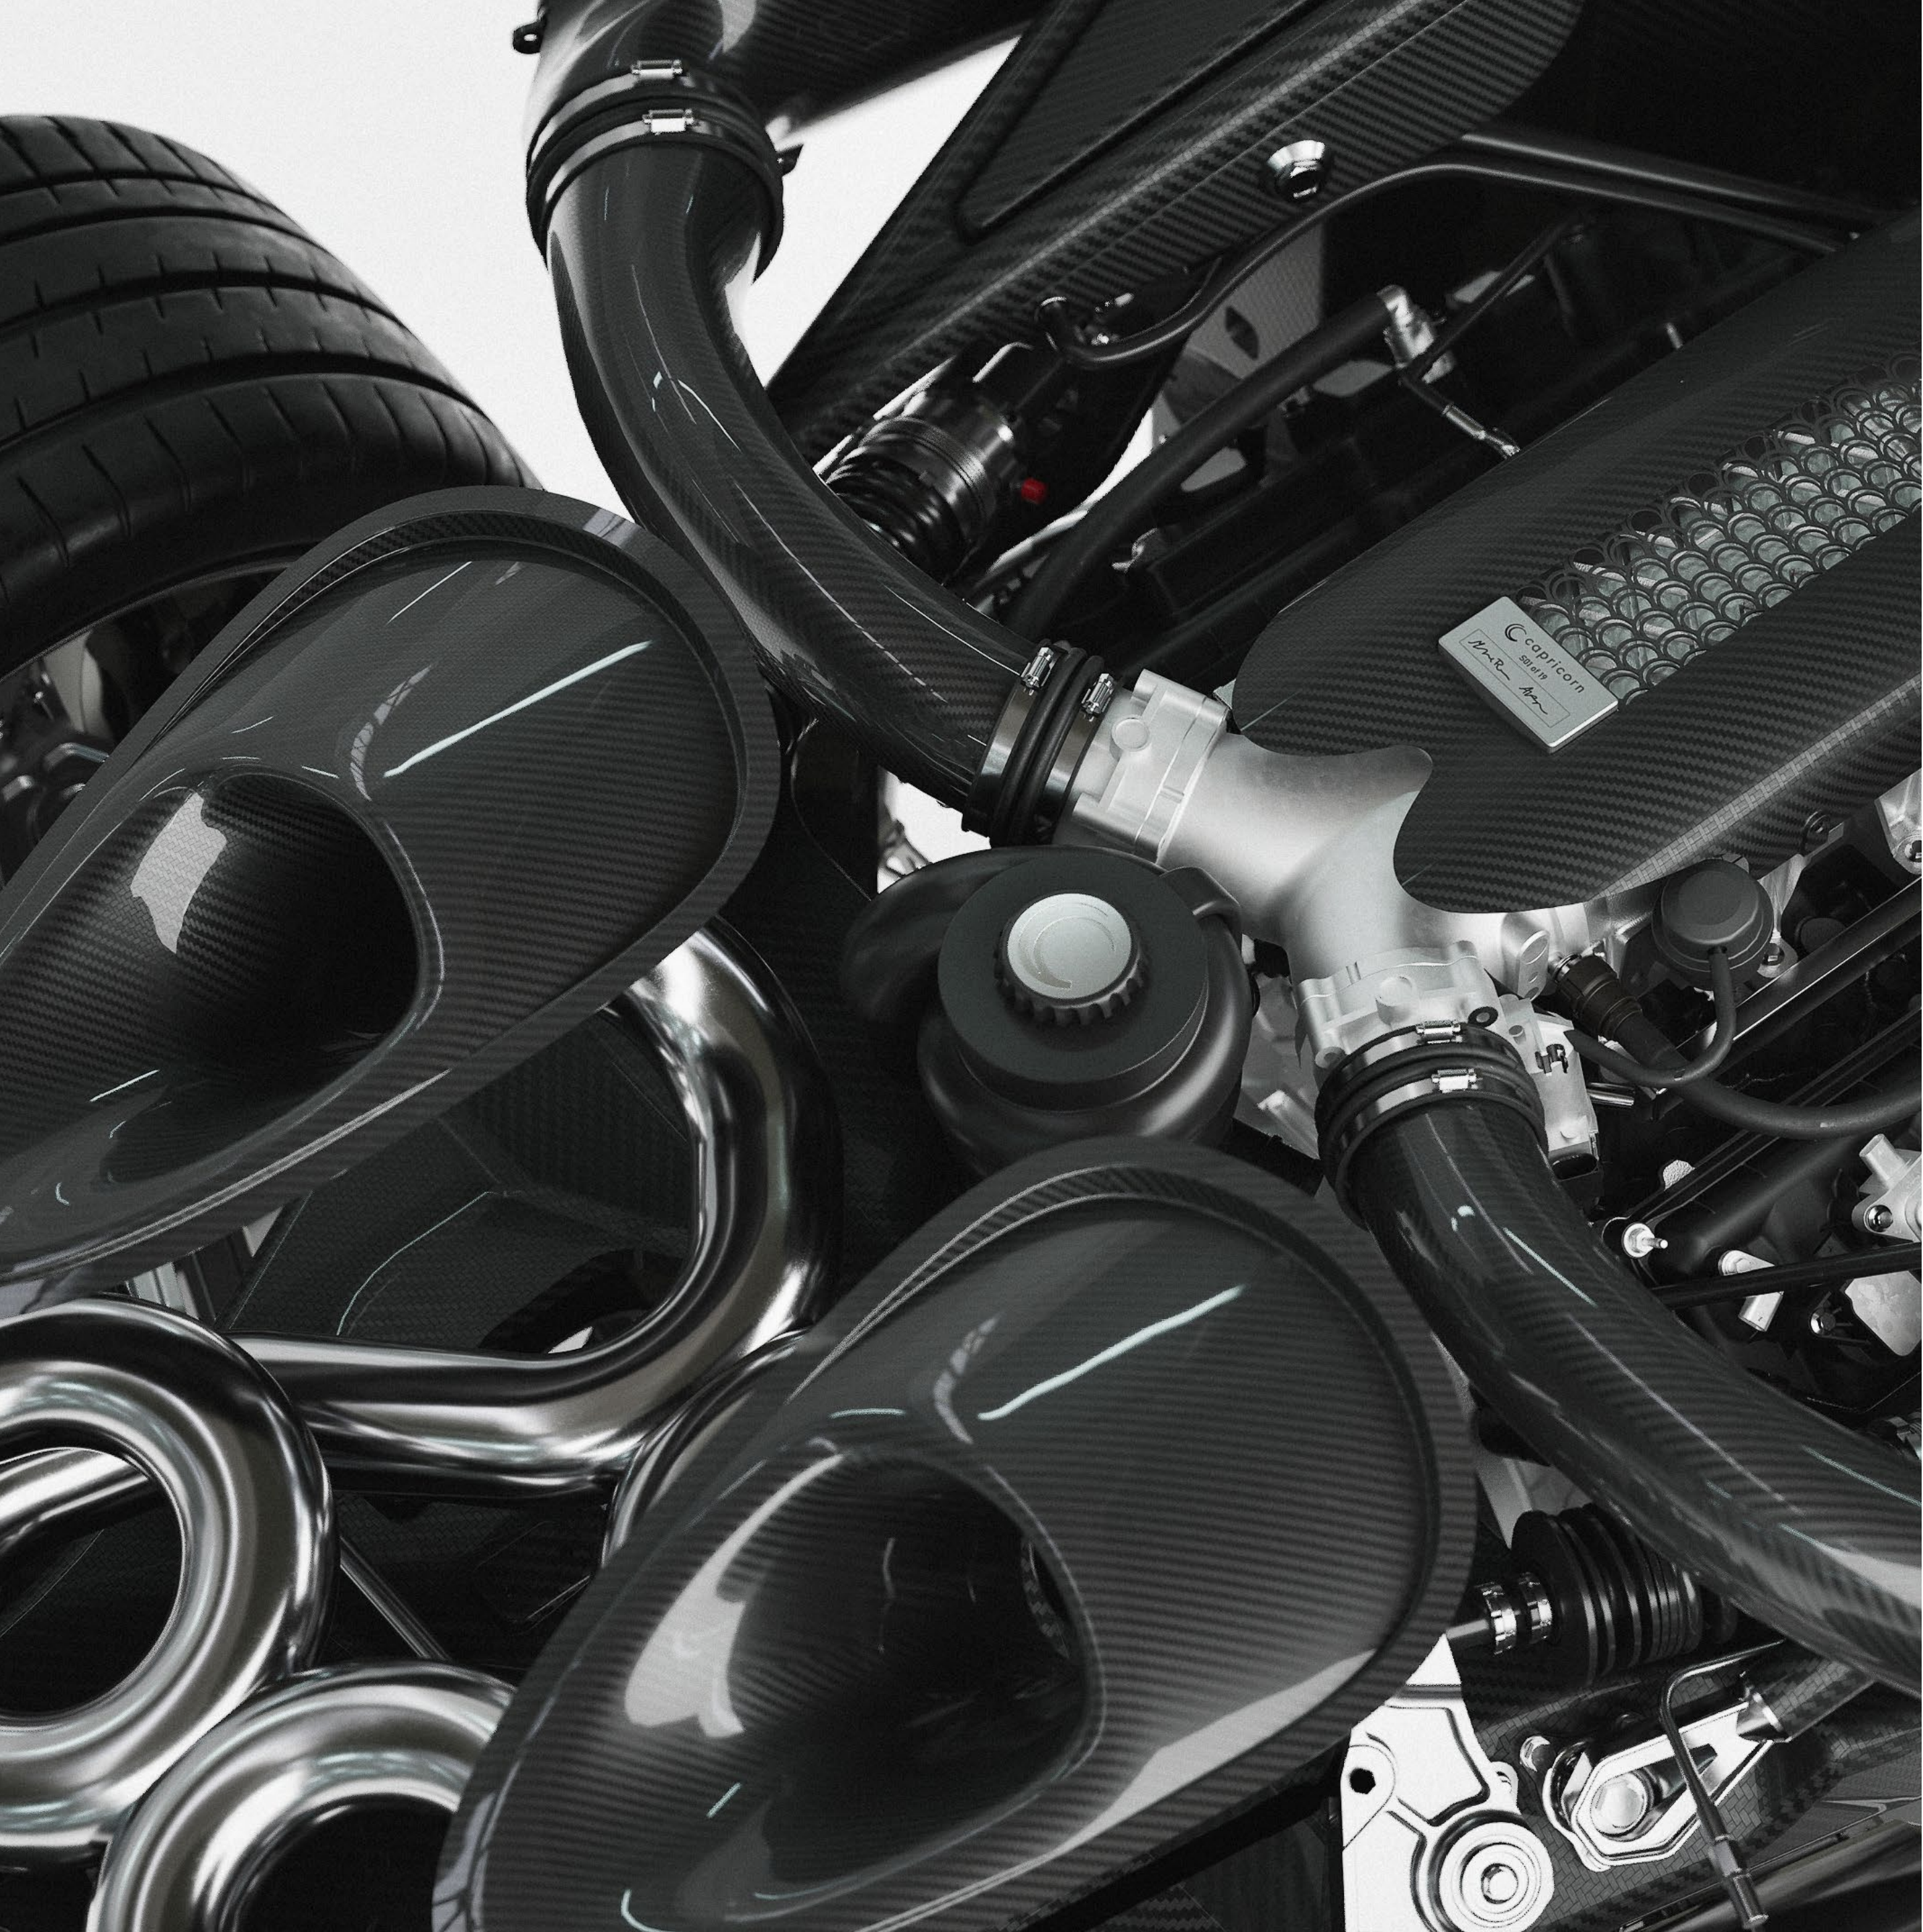

INTERIOR.

TIMELESS AND MINIMALISTIC CABIN AESTHETIC.

The capricorn design team, was responsible for designing the interior. The objective was to create a minimalist interior that provides everything required to enhance the driving experience but is completely free of distraction. The philosophy is “less is more, but whatever goes in, is of the highest quality” ensuring a highly driver focused, timeless cabin that is not over-populated with digital features.

TECHNICAL SPECIFICATIONS.

VEHICLE PERFORMANCE		ENGINE:	
MAX. SPEED:	360 KM/H (224 MPH)	NUMBER OF CYLINDERS:	8
0-100 KM/H / 0-60 MPH	< 3S	DISPLACEMENT:	5.2 LITER

		BODYSHELL CARBON FIBRE (CFRP)	
		UNDERBODY CARBON FIBRE (CFRP)	

BASE SPECIFICATIONS.

The following features and options are included as part of the standard specification of the capricorn 01 Zagato.

1. EXTERIOR SPECIFICATION	
CHASSIS:	ANY SINGLE SOLID OR METALLIC PAINT FINISH FROM THE CAPRICORN STANDARD COLOUR RANGE.
BRAKE CALIPERS:	ANY COLOUR SELECTION FROM CAPRICORN'S STANDARD BRAKE CALIPER PALETTE.
AERO COMPONENTS:	FRONT SPLITTER, SIDE SKIRTS, AND REAR DIFFUSER FINISHED EITHER IN VISUAL CARBON FIBRE OR BODY COLOUR PAINT.
WHEELS:	CHOICE BETWEEN FORGED ALLOY, CARBON FIBRE OR THREE-PIECE DESIGN WHEELS.
REAR VIEW CAMERA:	FACTORY-FITTED REVERSING CAMERA.
FOUR-WHEEL LIFT SYSTEM:	EQUIPPED AS STANDARD; MAY BE DELETED UPON REQUEST AT NO CHARGE (APPROX. 15 KG WEIGHT REDUCTION).

2. INTERIOR SPECIFICATION	
STEERING WHEEL:	CHOICE OF FULL CONNOLLY LEATHER OR ALCANTARA (SUEDE) UPHOLSTERY FROM THE FULL CAPRICORN COLOUR LIBRARY. STEERING WHEEL SPOKES AVAILABLE IN ANODISED FINISHES FROM THE CAPRICORN COLOUR PALETTE.
SAFETY HARNESSSES:	SIX-POINT HARNESS SYSTEM IN A RANGE OF STANDARD COLOURS.
INTERIOR UPHOLSTERY:	FREE CHOICE OF COLOURS FROM THE EXTENSIVE CONNOLLY LEATHER AND ALCANTARA SELECTIONS. CONTRAST OR MATCHING STITCHING AVAILABLE.
INTERIOR DETAILS:	ALL TITANIUM SWITCHGEAR AND INTERIOR METAL PARTS AVAILABLE WITH ANODISED FINISHES FROM THE CAPRICORN COLOUR PALETTE.
FLOOR MATS:	FULLY TAILORED FLOOR MATS IN THE CUSTOMER'S CHOICE OF COLOUR, WITH FREE CHOICE OF PIPING/LINING COLOUR.
SEATING:	DRIVER'S SEAT OPTIMISED FOR ERGONOMIC FIT AND DRIVING POSITION.
AIR CONDITIONING SYSTEM:	STANDARD FITMENT; MAY BE DELETED UPON REQUEST AT NO CHARGE (APPROX. 12 KG WEIGHT REDUCTION).

3. STANDARD EQUIPMENT AND ACCESSORIES	
VEHICLE COVER:	BESPOKE INDOOR CAR COVER SUPPLIED AS STANDARD.
BATTERY CHARGER:	CAPRICORN INTELLIGENT CHARGING UNIT INCLUDED.
DEDICATED HANDOVER:	PERSONAL VEHICLE HANDOVER AND IN-DEPTH TECHNICAL INTRODUCTION CONDUCTED BY A CAPRICORN ENGINEER AT ONE OF CAPRICORN GROUP'S FACILITIES IN GERMANY.
DRIVER ASSISTANCE SYSTEMS:	ANTI-LOCK BRAKING SYSTEM (ABS) TRACTION CONTROL SYSTEM (TCS) ELECTRONIC STABILITY PROGRAMME (ESP) ALL SYSTEMS CALIBRATED FOR HIGH-PERFORMANCE DRIVING AND MAY BE DRIVER-ADJUSTABLE.

4. GENERAL NOTES

THE BASE SPECIFICATION REFLECTS THE STANDARD CONFIGURATION OF THE CAPRICORN 01 ZAGATO AT THE TIME OF ORDER.

ADDITIONAL CUSTOMISATIONS, FINISHES, OR SPECIAL MATERIALS BEYOND THIS SCOPE MAY BE COMMISSIONED AS PART OF THE CUSTOMISATION PROGRAMME, SUBJECT TO TECHNICAL FEASIBILITY AND QUOTATION BY CAPRICORN.

WEIGHT REDUCTIONS STATED ARE APPROXIMATE AND MAY VARY DEPENDING ON OVERALL CONFIGURATION.

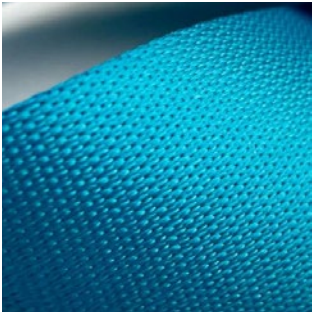

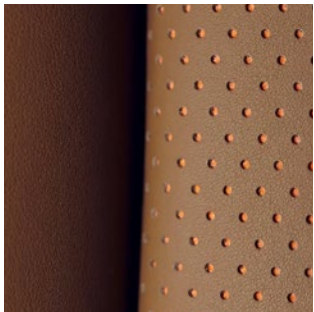

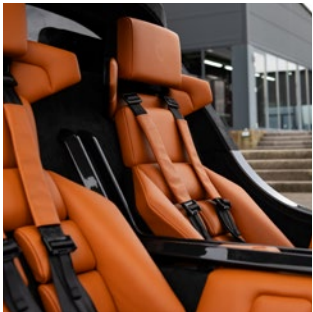

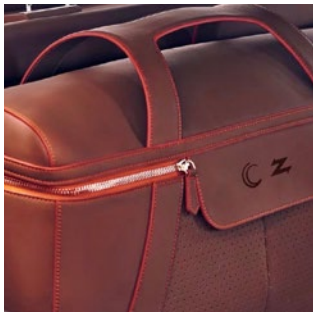

BESPOKE SPECIFICATIONS.

At capricorn Zagato, creative ideas and concepts are turned into perfectly executed automobiles. Our philosophy of personal commissioning requires that every facet of your car is dictated by your individual taste. This includes materials, colours, appearance, seats, panels and trim. From a tinted carbon fibre monocoque, redesigning instruments, controls and inner panels, mastering the noblest materials and colours, our designers conceptualise every detail to create your own, singular atmosphere.

UNLIMITED BESPOKE OPTIONS.

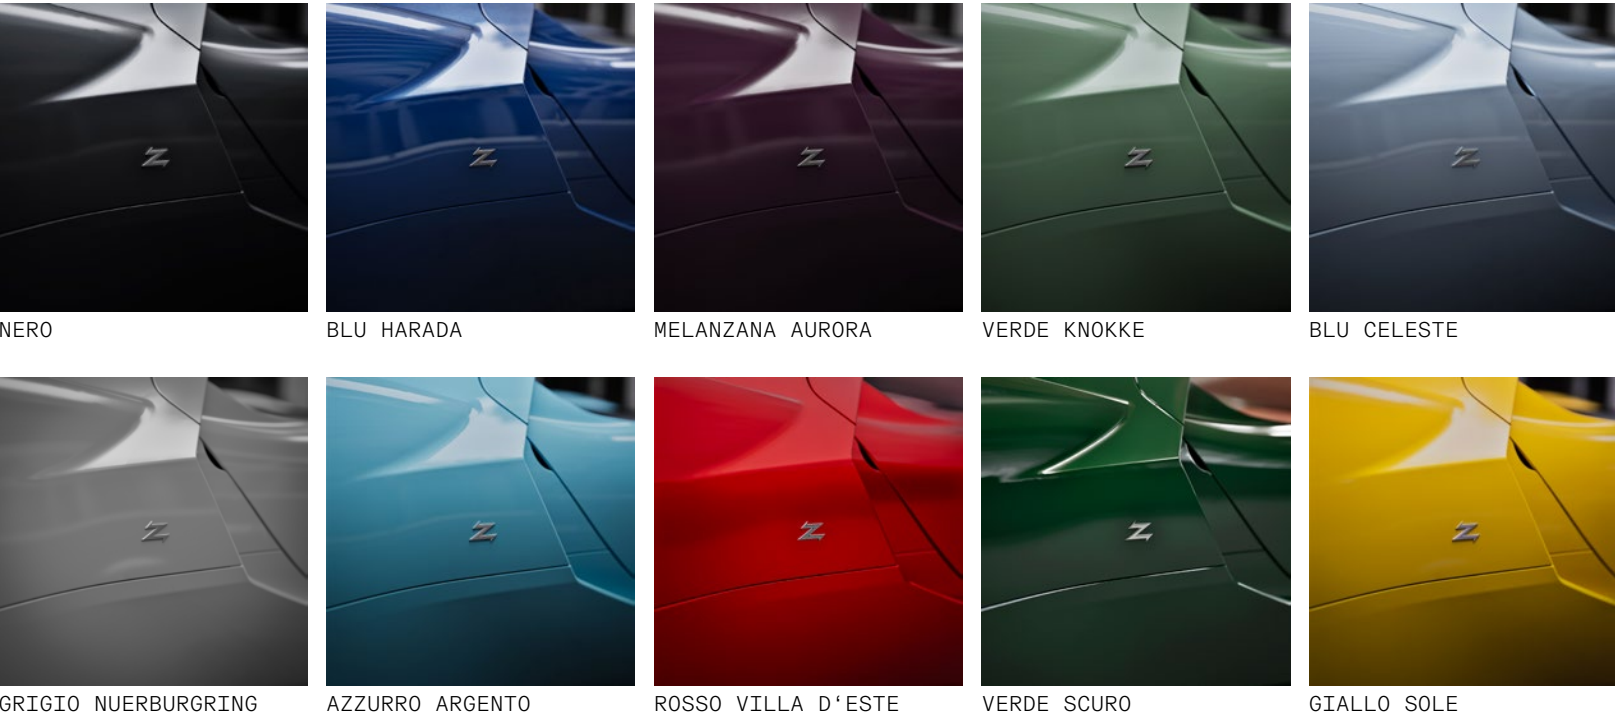

DOOR PANELS & HANDLE	SITCHING & PIPING	KEY AND CONTROLS	DOOR OPENER
			
SEAT BELTS	FLOORING	GEAR SHIFT LEVER	LEATHER FINISHES
